2017-2018

INTERNSHIPS AND TRAININGS

Data Analyst Intern | Power BI Project

Learn and Build (Jaipur, Rajasthan)

June 2024 -August 2024

- Learned **SQL (basics)**, **Excel**, **Power BI**, and basic **Python (basics)** during the internship.
- Merged 4 Excel datasets (student info, assessments, accounts, course details) and cleaned data using Power Query.
- Built a 3-page **Power BI dashboard** for tracking student performance and company revenue.
- Page 1: Visualized student count by month/college, assessment averages, course types, and locations.
- Page 2: Displayed revenue insights by payment mode, internship duration, and reference source.
- Page 3: Created detailed student profiles with slicers, cards, and charts for individual analysis.

PROJECTS

Ludo Game Website

- Built a responsive 2-4 player Ludo game using HTML, CSS, JavaScript, and Bootstrap.
- Used `LocalStorage (set/get)` to persist player data and settings.
- Designed UI with dice animation, turn indicators, and real-time updates.
- Applied modular JS, dice probability, and pathfinding for smooth gameplay.

Automated Payment Reminder Tool

- Built with JavaScript, HTML, CSS, jQuery, and XLSX.js.
- Parsed Excel to JSON, filtered unpaid records, and generated personalized reminders.
- Included real-time preview, copy-to-clipboard, and keyboard navigation.
- Reduced manual effort and improved reminder efficiency.

Automated Modern Analytics Dashboard

- Built with HTML, Tailwind CSS, JavaScript, Chart.js, ApexCharts
- Built a responsive single-page dashboard with views for KPIs, reports, analytics, revenue, and users.
- Integrated dynamic charts for user behavior, traffic, revenue trends, and demographics using Chart.js & ApexCharts.
- Designed a theme system with 15+ pre-built themes and a live Theme Builder (color picker, preview, import/export).
- Used Tailwind CSS and CSS variables to support light/dark modes and real-time theme updates.
- Ensured mobile-first design with adaptive grids, collapsible sidebar, and responsive charts.

TECHNICAL SKILLS

C++ | HTML/CSS | JavaScript | PowerBI
